# The Undergrad Thesis Project

Category: Architecture

## Recognising Architectural Innovation

Closing the inaugural season of our Undergrad Thesis Competition, we celebrate an impressive display of talent and innovation. This global platform showcased architectural creativity, inspiring future scholars and earning deserved recognition.

We're delighted to reveal the winners, honourable mentions, and top 25 submissions. Each exhibited extraordinary architectural acumen, setting a high bar for future contests. Explore these exemplary works on our website and media platforms. Heartfelt congratulations to all participants for making this event a resounding success. Stay tuned for more exciting opportunities in the world of architecture!

## Concept- Weaving with Nature: An Interface

Our old sites are repositories of accumulated experience and heritage, strategies to demonstrate a sophisticated and synthetic relationship with the environment, these built environment and these strategies emerge as natural responses to climate, topography, available natural material and human resources. The main objective is to create a vibrant, interconnected, and diverse, assimilating social network, embracing public-private-public-private.

The new potential of the former infrastructure lies in its history, context, and close 'woven' with topography and a rich topography and nature to create a vibrant, interconnected, and diverse, assimilating social network, embracing public-private-public-private.

The primary objective is to interrogate, analyse and search for the balance between Nature, Site and Program in a multi-layer that has long influenced Cultural and Social history and a rich repository of Material and Building Traditions.

Project Proposed by Ministry of RA and ID of Telangana Government is related to the state's strategic and Foreign Investments in the IT sector of the state. The main objective is to create a vibrant, interconnected, and diverse, assimilating social network, embracing public-private-public-private.

The site allocated by the Government of Telangana is 40 acres located in the urban hub of innovation (Technology Museum), Convention and Conference Centre, Mini-Conference/ Classrooms, Start-up Incubators, Residential Facilities, Hotels, Restaurants, Open Air performance area, Relaxation Hub Skill Development Centre.

Since the site is located in an urban setting, the program will be developed in a way that is suitable for an urban setting. The main objective is to create a vibrant, interconnected, and diverse, assimilating social network, embracing public-private-public-private.

Primary data collection will be based on site visits, secondary data collection based on the existing programs and the existing context. The main objective is to create a vibrant, interconnected, and diverse, assimilating social network, embracing public-private-public-private.

Since the site is located in an urban setting, the program will be developed in a way that is suitable for an urban setting. The main objective is to create a vibrant, interconnected, and diverse, assimilating social network, embracing public-private-public-private.
